Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 1: Elements of the Economy</b></p> <p><b>Theme 1 Scarcity and Opportunity Cost</b></p> <p>Students ponder the question “if goods and services have improved most people's lives over time, why doesn't everyone have everything they need and want?” Students will learn that goods and services are limited, as are all resources. At the same time, people's wants are virtually unlimited.</p> <p>Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Economics and choices</li> <li>▪ People's needs and wants</li> <li>▪ Consumers and self-interest</li> <li>▪ Production of goods and services</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Define economics</li> <li>▪ Explain why scarcity forces decisions</li> <li>▪ Identify opportunity costs</li> <li>▪ Evaluate the economic soundness of a decision</li> <li>▪ Distinguish between needs and wants</li> <li>▪ Evaluate how needs and wants affect the choices that people make.</li> <li>▪ Describe the benefits of voluntary exchange and specialization.</li> <li>▪ Distinguish between self-interest and selfishness.</li> <li>▪ Identify how self-interest helps you and others.</li> <li>▪ Separate income into two categories: consumption and savings.</li> <li>▪ Explain how a business acting in its self-interest benefits others.</li> <li>▪ Identify the four key resources available to produce goods and services</li> <li>▪ Explain how businesses contribute to the flow of the economy.</li> <li>▪ List the six core principles of economics</li> <li>▪ Differentiate between incentives and disincentives</li> <li>▪ Apply each of the six core principles of economics to a life choice</li> <li>▪ Evaluate the benefits and costs of decisions by using economic reasoning.</li> <li>▪ Analyze the trade-offs in a typical day and identify ways to lower the opportunity costs.</li> <li>▪ Categorize items as needs or wants.</li> <li>▪ Analyze the resources needed to provide a specific product.</li> <li>▪ Evaluate the impact that the product has on people around the world."</li> <li>▪ Determine what part of the circular flow model an action represents.</li> <li>▪ Determine what economic principle an action represents.</li> <li>▪ Define key terms related to scarcity and opportunity cost.</li> <li>▪ Categorize items as needs or wants.</li> </ul>	<p><b>1.1.1 Scarcity, Choice, Opportunity Costs, Incentives</b> – Using examples, explain how scarcity, choice, opportunity costs, and incentives affect decisions made by households, businesses, and governments.</p> <p><b>1.3 Prices, Supply, and Demand</b> Compare how supply, demand, price, equilibrium, elasticity, and incentives affect the workings of a market.</p> <p><b>2.1.1 Circular Flow and the National Economy</b> – Using the concept of circular flow, analyze the roles of and relationship between households, business firms, and government in the economy of the United States.</p> <p><b>PF 2 Buying Goods and Services</b> Describe the factors that consumers may consider when purchasing a good or service, including the costs, benefits, and the role of government in obtaining the information.</p> <p><b>PF 3 Budgeting and Saving</b> Identify the incentives people have to set aside income for future consumption and evaluate the impact of time, interest rates, and inflation upon the value of savings.</p> <p><b>PF1 Earning Income</b> Conduct research regarding potential income and employee benefit packages, non-income factors that may influence career choice, benefits, and costs of obtaining the necessary education or technical skills, taxes a person is likely to pay, and other possible sources of income.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 1: Elements of the Economy</b></p> <p><b>Theme 2 Allocation and Decision Making: Is There a Best Choice?</b></p> <p>Students discover that sound decision making is based on weighing the marginal costs and marginal benefits. To get the most value out of the resources available, choose only those actions that promise marginal benefits that are equal to or greater than marginal costs. Individuals, businesses, and countries will be more prosperous when their choices reflect the implications of thinking on the margin and using comparative advantage to specialize.</p> <p>Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Tools for allocating resources</li> <li>▪ Consumers and marginal thinking</li> <li>▪ Comparative advantage and specialization for individuals</li> <li>▪ Economic systems: How nations allocate resources</li> </ul>	<p><b>Reading Objectives</b></p> <ul style="list-style-type: none"> <li>▪ List the steps in the PACED model for decision making</li> <li>▪ Identify decisions that the PACED model can be used for</li> <li>▪ Explain how a budget can help with decision making</li> <li>▪ Explain the differences across free market, command, traditional, and mixed economies</li> <li>▪ Analyze how economic systems impact the economic choices of its consumers and businesses</li> <li>▪ Apply marginal thinking to a daily choice</li> <li>▪ Identify diminishing marginal utility to a choice</li> <li>▪ Identify the best use of time, talent, or treasure using comparative advantage</li> <li>▪ Analyze the comparative advantage and show that specializing can lead to more trade</li> <li>▪ Apply the PACED model to decide on an optimal career path after high school.</li> <li>▪ Create an annual budget for a household to achieve short-, medium-, and long-term goals.</li> <li>▪ Evaluate trade-offs at the margin when deciding how to grow a business.</li> <li>▪ Design an advertisement that will lure customers to buy a product based on marginal thinking.</li> <li>▪ Analyze how to allocate time and talent (i.e., labor) based on comparative advantage.</li> <li>▪ Define key terms related to allocation and decision making.</li> <li>▪ As consumers, evaluate marginal costs and marginal benefits of economic decisions.</li> <li>▪ As workers, evaluate how opportunity cost is affected by allocation of talent and time based on trade and comparative advantage.</li> </ul>	<p><b>4.1 Decision Making</b> Individually and collaboratively, students will engage in planned inquiries to describe and demonstrate how the economic forces of scarcity and opportunity costs impact individual and household choices.</p> <p><b>1.1.3 Marginal Analysis</b> Weigh marginal benefits and marginal costs in decision making.</p> <p><b>1.4.1 Public Policy and the Market</b> Analyze the impact of a change in public policy on consumers, producers, workers, savers, and investors.</p> <p><b>3.1.3 Comparing Economic Systems</b> Compare and contrast the characteristics, advantages, and disadvantages of traditional, command, market, and mixed economic systems.</p> <p><b>3.2.1 Absolute and Comparative Advantage</b> – Use the concepts of absolute and comparative advantages to explain why goods and services are produced in one nation or locale versus another.</p> <p><b>PF3 Budgeting and Saving</b> Identify the incentives people have to set aside income for future consumption and evaluate the impact of time, interest rates, and inflation upon the value of savings</p> <p><b>CG3 Patterns of Global Interactions</b> Define the process of globalization and evaluate the merit of this concept to describe the contemporary world by analyzing:</p> <ul style="list-style-type: none"> <li>• the comparative economic advantages and disadvantages of regions, regarding cost of labor, natural resources, location, and tradition.</li> </ul>

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 1: Elements of the Economy</b></p> <p>Theme 3 Business Decisions</p> <p>Students discover that a businesses' success stems from continually satisfying their own consumers. Businesses are rewarded for doing so through a steady stream of profits. These profits allow them to produce more or invest their profits. Economic reasoning and marginal analysis help business owners make sound production and investment choices. Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Why be in business?</li> <li>▪ Business behavior</li> <li>▪ What to sell?</li> <li>▪ Economic goals in the market economy.</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Use the profit equation to calculate profits.</li> <li>▪ Identify factors that affect revenue and cost and explain how businesses respond to changes.</li> <li>▪ List strategies for increasing profit.</li> <li>▪ Explain how producers use marginal analysis to make sound choices.</li> <li>▪ Interpret price signals from the perspectives of the producer and the consumer.</li> <li>▪ Associate different price signals with different market conditions.</li> <li>▪ Use economic profit to determine best production alternatives.</li> <li>▪ Calculate profit margin and explain its importance.</li> <li>▪ Connect the promise of profits to rewards associated with ethical behavior.</li> <li>▪ Explain how businesses benefit from specialization and trade.</li> <li>▪ Analyze opportunity costs to determine comparative advantage.</li> <li>▪ List ways that trade benefits the consumer.</li> <li>▪ List seven goals of the market economy.</li> <li>▪ Explain how the goals in a market economy relate to consumers, businesses, and government.</li> </ul> <p><b>Hands –On Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Examine how changes in revenue and costs affect profits and analyze how a business can respond to increased competition.</li> <li>▪ Create a pitch to lenders...</li> <li>▪ Analyze price signals reflecting changes in consumer demand...</li> <li>▪ Analyze the impact of laws, regulations, and subsidies on business decisions and consumer demand.</li> <li>▪ Make connections among different economic goals in a market economy...</li> </ul>	<p><b>1.1.1 Scarcity, Choice, Opportunity Costs, Incentives</b> Using examples, explain how scarcity, choice, opportunity costs, and incentives affect decisions made by households, businesses, and governments.</p> <p><b>1.2.1 Institutions</b> Describe the roles of various economic institutions and purposes they serve in a market economy.</p> <p><b>PF5 Financial Investing</b> Analyze the risks, expected rate of return, tax benefits, the impact of inflation, the role of government agencies, and the importance of diversification when investing in financial assets.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 1: Elements of the Economy</b></p> <p><b>Theme 4: Entrepreneurship and Business Ownership</b></p> <p><b>1.4 Entrepreneurship and Business</b></p> <p><b>Students discover that the</b> entrepreneurial path requires continual decision making around how to make effective use of scarce resources. Discovering the right price is one of many decisions an entrepreneur is going to have to make to begin and grow a startup. Entrepreneurs must make continuous decisions about whether to stay on the current path and persevere or pivot and turn in another direction where the opportunity cost is lower. Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Recipe for a successful business startup</li> <li>▪ Information-based decisions</li> <li>▪ Single business life cycle</li> <li>▪ Business ownership</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Recognize the basis of entrepreneurship is adding value, filling a need, or solving a problem.</li> <li>▪ Identify the key characteristics of entrepreneurs.</li> <li>▪ Recognize the three factors that influence entrepreneurial success.</li> <li>▪ Recognize the types of information-based decisions entrepreneurs make to launch and improve a business.</li> <li>▪ Explain why a new, innovative product or service generates a higher price and profit.</li> <li>▪ Describe the effect of competition on price as new sellers enter the market.</li> <li>▪ Identify the stages of a single business life cycle.</li> <li>▪ Explain the effect innovation has as a disruptor in a business’s life cycle.</li> <li>▪ Identify the short-term negative effects of innovation.</li> <li>▪ Recognize the importance of small businesses in the U.S. economy.</li> <li>▪ Identify the three major types of business organization.</li> <li>▪ Compare advantages and disadvantages of types of business organization.</li> <li>▪ Define a stockholder and bondholder.</li> <li>▪ Identify the ways in which stockholders can realize capital gains, dividends, and capital losses.</li> </ul> <p><b>Hands on Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Identify the ways in which bondholders are repaid, how they earn interest income, and the risks they face.</li> <li>▪ Analyze how changes in the production of goods and services affects the markets for labor and goods and services as well as the household consumer.</li> <li>▪ Evaluate how innovations in automated processes can lead to creative destruction and then examine how the labor market might adjust to such innovations.</li> <li>▪ Determine the best business structure for a company and explain the risks and rewards of that choice.</li> <li>▪ Participate in a competitive simulation where groups invest in stocks and bonds to see who invests most wisely.</li> <li>▪ Define key terms related to businesses and free enterprise.</li> </ul>	<p><b>1.1.2 Entrepreneurship</b> – analyze the risks and rewards of entrepreneurship and associate the functions of entrepreneurs with alleviating problems associated with scarcity.</p> <p><b>1.2.1 Institutions</b> – describe the roles of various economic institutions and purposes they serve in a market economy.</p> <p><b>4.1 Decision Making</b> Individually and collaboratively, students will engage in planned inquiries to describe and demonstrate how the economic forces of scarcity and opportunity costs impact individual and household choices.</p> <p><b>PF5 Financial Investing</b> Analyze the risks, expected rate of return, tax benefits, the impact of inflation, the role of government agencies, and the importance of diversification when investing in financial assets.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 1 Project: Budget Economics</b></p> <p>Students conduct research about possible future income and expenses to create a working budget and then analyze the economics of the budget. Students will identify the impact of scarcity on personal finances and reflect on the opportunity costs of their choices.</p>	<p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Use a budgeting process to create a future budget</li> <li>▪ Analyze the economics of a personal budget</li> </ul>	<p><b>PF 3 Budgeting and Saving</b></p> <p>Identify the incentives people have to set aside income for future consumption and evaluate the impact of time, interest rates, and inflation upon the value of savings.</p>
<p><b>Unit 1 Case Study: Scarcity and Business Decisions</b></p> <p>Students consider a personal example and then a business example of the challenges created by scarcity when a group has to work together to determine how to make the best use of time, talent, and treasure</p>	<p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Use economic reasoning to analyze opportunity costs and make budget decisions</li> <li>▪ Practice nominal group technique to make a group decision</li> <li>▪ Explain why scarcity matters</li> </ul>	<p><b>4.1 Decision Making</b></p> <p>Individually and collaboratively, students will engage in planned inquiries to describe and demonstrate how the economic forces of scarcity and opportunity costs impact individual and household choices.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 2: Markets</b></p> <p><b>2.1 Consumers Rule</b></p> <p>Students learn about the economic term demand and investigate how economic demand explains how consumers influence the market, letting producers know what they want and are willing to buy. Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Price-Allocation System</li> <li>▪ Law of Demand</li> <li>▪ The Demand Curve</li> <li>▪ Consumer Demand Changes</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Explain how the price consumers are willing to pay and producers’ costs create a price-allocation system in market economies.</li> <li>▪ Identify the conditions that would allow for both buyers and sellers to benefit from an exchange.</li> <li>▪ Identify the effect of diminishing marginal utility on the price consumers are willing to pay for a good or service.</li> <li>▪ Summarize the law of demand.</li> <li>▪ Use the law of demand to predict changes in price and quantity demanded.</li> <li>▪ Use the substitution and income effects to explain the law of demand.</li> <li>▪ Differentiate between quantity demanded and demand.</li> <li>▪ Explain how to graph a demand curve.</li> <li>▪ Discuss market demand and demand elasticity.</li> <li>▪ Identify the factors that shift demand.</li> <li>▪ Evaluate how a change in a demand shifter will impact consumer demand.</li> </ul> <p><b>Hands On Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Compete with other businesses to stimulate demand, knowing that consumers face diminishing marginal utility.</li> <li>▪ Graph demand curves.</li> <li>▪ Hypothesize whether consumer demand is likely to be inelastic or elastic when the prices for a variety of goods and services change and then analyze the reasons why.</li> <li>▪ Hypothesize whether consumer demand is likely to be inelastic or elastic when the prices for a variety of goods and services change and then analyze the reasons why</li> <li>▪ Develop a concept map that shows the connections among the key concepts related to how consumers affect what is available in the market.</li> <li>▪ Define key terms related to consumer behavior.</li> <li>▪ Analyze the factors related to consumer behavior.</li> </ul>	<p><b>1.3 Prices, Supply, and Demand</b> Compare how supply, demand, price, equilibrium, elasticity, and incentives affect the workings of a market.</p> <p><b>1.3.1 Supply And Demand</b> Use the laws of supply and demand to explain household and business behavior.</p> <p><b>1.3.2 Price, Equilibrium, Elasticity, and Incentives</b> – analyze how prices change through the interaction of buyers and sellers in a market, including the role of supply, demand, equilibrium, and elasticity, and explain how incentives (monetary and non-monetary) affect choices of households and economic organizations.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 2: Markets</b></p> <p><b>2.2 Producers Provide</b> <i>How do producers and consumers negotiate price with each other?</i></p> <p>Students learn about the economic term supply as they examine the effect producers have in the market. Students explore the following topics:</p> <ul style="list-style-type: none"> <li>▪ Supply Boot Camp</li> <li>▪ Supply Shifters</li> <li>▪ Market-Clearing Price</li> <li>▪ Competition and Market Structure</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Summarize the law of supply.</li> <li>▪ Use the law of supply to predict market prices</li> <li>▪ Explain how to graph a supply curve.</li> <li>▪ Differentiate between quantity supplied and supply</li> <li>▪ Evaluate the change in supply resulting from a change in a supply shifter</li> <li>▪ Identify the six key shifters in supply</li> <li>▪ Explain elasticity of supply</li> <li>▪ Explain market equilibrium</li> <li>▪ Define surplus and shortage</li> <li>▪ Explain how a market reaches equilibrium</li> <li>▪ Describe the characteristics of the four market structures</li> <li>▪ Recognize the traits that determine market structure</li> <li>▪ Evaluate the benefits and costs of alternative market structures</li> <li>▪ Define price controls, price ceilings, and price floors</li> <li>▪ Differentiate price ceilings from price floors</li> <li>▪ Evaluate the benefits of price ceilings and price floors</li> </ul> <p><b>Hands-On Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Evaluate the optimal goods to supply ratio</li> <li>▪ Predict how supply curves will shift given changes in various costs and policies</li> <li>▪ Determine how a business owner would change supply in response to a change in the price consumers are willing and able to pay for their goods</li> <li>▪ Understand the role sellers and buyers play in determining the market-clearing price of a good</li> <li>▪ Evaluate the impact of firms operating in different market structures</li> <li>▪ Examine various policy options available to a city council debating how to revitalize downtown areas</li> <li>▪ Construct a concept map</li> <li>▪ Explain demand, supply, and market equilibrium</li> <li>▪ Define key terms related to how producers and consumers negotiate price with each other</li> <li>▪ Analyze the factors that affect how producers and consumers negotiate price with each other</li> </ul>	<p><b>1.2 Competitive Markets</b> Individually and collaboratively, students will engage in planned inquiries to analyze how the functions and constraints of business structures, the role of price in the market, and relationships of investment to productivity and growth, impact competitive markets.</p> <p><b>1.2.1 Institutions</b> Describe the roles of various economic institutions and purposes they serve in a market economy.</p> <p><b>1.2.2 Market Structures</b> Identify the characteristics of perfect competition, monopolistic competition, oligopoly, and monopoly market structures.</p> <p><b>1.4.6 Price Controls</b> Analyze the impact of price ceilings and price floors on the quantity of a good or service supplied and demanded in a market.</p>

<p><b>Unit 3: National Economy</b></p> <p><b>3.3 The Role of Money and Banking</b> <i>What are the effects of monetary policies?</i></p> <p>Students examine monetary policies. They will take a closer look at the importance of money, how it changes value over time, and the availability of it through credit. As they frame an answer to the question, "What are the effects of monetary policies?" These are the topics they will investigate:</p> <ul style="list-style-type: none"> <li>• Money in a modern economy</li> <li>• Interest rates</li> <li>• Inflation</li> </ul>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Describe the history and mission of the Federal Reserve System</li> <li>▪ Recognize the structure of the Federal Reserve System</li> <li>▪ Describe the tools of monetary policy and how they help the Federal Reserve System accomplish its goals</li> <li>▪ Describe how monetary policies use interest rates to influence behaviors in savers and borrows</li> <li>▪ Distinguish between real interest rate and nominal interest rate</li> <li>▪ Identify factors leading to higher or lower interest rates for borrowing and lending</li> <li>▪ Define inflation, and describe its effect on purchasing power</li> <li>▪ Recognize the effects of inflation in the macro-economy</li> <li>▪ Explain the intended and possible unintended consequences of monetary policy to manage inflation</li> </ul> <p><b>Hands-On Objectives</b></p> <ul style="list-style-type: none"> <li>▪ Examine how frequent banking panics led to the creation of the Federal Reserve System</li> <li>▪ Examine the methods used by the Federal Reserve to influence the availability of money and credit</li> <li>▪ Examine the effects of changes in interest rates on the economic behavior of consumers and businesses</li> <li>▪ •Analyze the impact of compounding interest on students’ ability to save for the future</li> <li>▪ Examine the impact of inflation on household budgets and determine strategies for adjusting to inflation</li> <li>▪ Examine the causes of stagflation and the limitations of fiscal and monetary policy to deal with it</li> <li>▪ Construct a concept map linking ideas related to the effects of monetary policies</li> <li>▪ Define key terms related to the effects of monetary policies</li> <li>▪ Analyze the reasons for and effects of monetary policies</li> </ul>	<p><b>1.2.1 Institutions</b> Describe the roles of various economic institutions and purposes they serve in a market economy.</p> <p><b>2.2.4 Federal Reserve and Monetary Policy</b> Explain the roles and responsibilities of the Federal Reserve system and compare and contrast the consequences (intended and unintended) of different monetary policy actions of the Federal Reserve Board as a means to achieve macroeconomic goals of stable prices, low unemployment, and economic growth.</p> <p><b>PF3 Budgeting and Saving</b> Identify the incentives people have to set aside income for future consumption and evaluate the impact of time, interest rates, and inflation upon the value of savings</p> <p><b>PF4 Using Credit</b> Evaluate the benefits, costs, and potential impacts of using credit to purchase goods and services.</p>

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 3 Project: Surviving Unemployment</b></p> <p>Students research unemployment benefits and analyze the impact of unemployment on a household. Then they develop an unemployment survival guide to share information and strategies for avoiding and coping with unemployment.</p>	<p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Explain what unemployment insurance is and how it works</li> <li>▪ Describe the four types of unemployment</li> <li>▪ Identify strategies an individual can use to prepare for periods of unemployment</li> </ul>	<p><b>PF6 Protecting and Insuring</b></p> <p>Assess the financial risk of lost income, assets, health, or identity, and determine if a person should accept the risk exposure, reduce risk, or transfer the risk to others by paying a fee now to avoid the possibility of a larger loss later.</p>
<p><b>Unit 3 Case Study: Government Referee</b></p> <p>Students consider personal and business situations that require a third party to intercede. Students then brainstorm and research possible solutions to a conflict between business owners and homeowners and present their ideas in a written argument.</p>	<p><b>Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Analyze the role government plays in market situations</li> <li>▪ Write an argument supporting a position related to government intervention</li> </ul>	<p><b>1.1 Individual, Business, and Government Decision Making</b></p> <p>Individually and collaboratively, students will engage in planned inquiries to explain and demonstrate how individuals confront scarcity, and how market forces influence how they organize, produce, use, and allocate resources in its presence.</p>

<p><b>Unit 4: International Trade</b></p> <p><b>4.1 International Trade</b> Do the benefits of international trade outweigh the costs?</p> <p>Some people want free and open trade of goods, services, and resources sold internationally with limited government interference. On the other hand, some people feel we'd be better off if the government closed the borders and made the country more self-sufficient. Students learn about each of the two perspectives to make an informed decision about these opposing approaches to trade.</p>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Identify the positive and negative attributes of a closed economy</li> <li>▪ Identify the positive and negative attributes of an open economy</li> <li>▪ Describe how international trade looks in a closed economy versus an open one</li> <li>▪ Analyze and evaluate open and closed economies and decide which model will lead to the best market outcomes and quality of life</li> </ul> <p><b>Hands-On Objectives</b></p> <ul style="list-style-type: none"> <li>▪ Gather evidence about a debate topic and evaluate the credibility of sources</li> <li>▪ Develop clear arguments that include a claim, warrants, and impact</li> <li>▪ Present a clear position in an argument that appeals to listeners and addresses opposing viewpoints</li> <li>▪ Analyze and evaluate the benefits of international trade</li> <li>▪ Identify the positive and negative attributes of a closed economy</li> <li>▪ Identify the positive and negative attributes of an open economy</li> <li>▪ Describe how international trade looks in a closed economy versus an open one</li> <li>▪ Describe how government policy changes in international trade can have intended and unintended consequences for the citizens of a country</li> <li>▪ Using economic reasoning, compare and contrast the overall impact of a closed versus an open economy</li> <li>▪ Analyze and evaluate open and closed economies and decide which model will lead to the best market outcomes and quality of life</li> </ul>	<p><b>3.1.2 International Organizations and the World Economy</b> Evaluate the diverse impact of trade policies of the World Trade Organization, World Bank, or International Monetary Fund on developing economies of Africa, Central America, or Asia, and on the developed economies of the United States and Western Europe.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 4: International Trade</b></p> <p><b>4.2 Trade Policies: Beyond Free Trade</b>  <i>Do the benefits of trade barriers outweigh the costs?</i></p> <p>Trade barriers, by design, slow or prevent trade with another country by adding a limitation on the free trade between the buyers and sellers. These take different forms and lead to different outcomes—both intended and unintended. Students examine the benefits and costs of building trade barriers between international borders as they form an answer to the question, "Do the benefits of trade barriers outweigh the costs?"</p>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Describe at least three trade policy tools</li> <li>▪ Identify the two choices the U.S. can make to encourage free trade</li> <li>▪ Recognize the role of NAFTA, EU, and WTO in international trade</li> <li>▪ Use economic reasoning to compare and contrast the outcomes of trade barriers versus free trade</li> <li>▪ Analyze and evaluate trade barriers and free trade and decide which model will lead to the best market outcomes and quality of life</li> <li>▪ Evaluate government and market solutions for handling problems in the market economy</li> </ul> <p><b>Hands-On Objectives</b></p> <ul style="list-style-type: none"> <li>▪ Gather evidence about a debate topic and evaluate the credibility of sources</li> <li>▪ Develop clear arguments that include a claim, warrants, and impact</li> <li>▪ Present a clear position in an argument that appeals to listeners and addresses opposing viewpoints</li> <li>▪ Analyze and discuss the benefits and costs of trade barriers</li> <li>▪ Describe at least three trade policy tools</li> <li>▪ Identify the two choices the U.S. can make to encourage free trade</li> <li>▪ Recognize the role of NAFTA, EU, and WTO in international trade</li> <li>▪ Use economic reasoning to compare and contrast the outcomes of trade barriers versus free trade</li> <li>▪ Analyze and evaluate trade barriers and free trade and decide which model will lead to the best market outcomes and quality of life</li> <li>▪ Evaluate government and market solutions for handling problems in the market economy</li> </ul>	<p><b>3.2.2 Domestic Activity and World Trade</b>            Assess the impact of trade policies, monetary policy, exchange rates, and interest rates on domestic activity and world trade.            Examples may include but are not limited to: tariffs, quotas, export subsidies, product standards, other barriers.</p> <p><b>3.2.3 Exchange Rate and World Trade</b>            Analyze the effects on trade from a change in an exchange rate between two currencies.</p> <p><b>3.2.4 The Global Economy and the Marketplace</b>            Analyze and describe how the global economy has changed the interaction of buyers and sellers.</p>

# JA Economics

Topic Descriptions	Key Learning Objectives	Michigan Economics Standards
<p><b>Unit 4: International Trade</b></p> <p><b>4.3 Trade Deficits</b> <i>Do the benefits of a trade deficit outweigh the costs?</i></p> <p>Students learn about imports and exports and how these global exchanges influence the United States economy. Today, with more openness to international trade, the share of the total RGDP that is made up of exports and imports is over 30 percent. Students explore what it means to us as a country when we are importing more than we're exporting— meaning a trade deficit—as they answer the question, "Do the benefits of a trade deficit outweigh the costs?"</p>	<p><b>Reading Objectives:</b></p> <ul style="list-style-type: none"> <li>▪ Define globalization and at least two effects it has had in the world economy</li> <li>▪ Describe the difference between balance of payments and balance of trade</li> <li>▪ Evaluate productivity for lower-wage developing nations and higher-productivity advanced nations</li> <li>▪ Analyze different perspectives on the government reducing the trade deficit versus free trade</li> <li>▪ Evaluate the benefits and cost of government influencing the imports and exports of a nation</li> </ul> <p><b>Hands-On Objectives</b></p> <ul style="list-style-type: none"> <li>▪ Gather evidence about a debate topic and evaluate the credibility of sources</li> <li>▪ Develop clear arguments that include a claim, warrants, and impact</li> <li>▪ Present a clear position in an argument that appeals to listeners and addresses opposing viewpoints</li> <li>▪ Analyze and discuss the benefits and costs of a trade deficit</li> <li>▪ Define globalization and at least two effects it has had in the world economy</li> <li>▪ Describe the difference between balance of payments and balance of trade</li> <li>▪ Evaluate productivity for lower-wage developing nations and higher-productivity advanced nations</li> <li>▪ Analyze different perspectives on the government reducing the trade deficit versus free trade</li> <li>▪ Evaluate the benefits and cost of government influencing the imports and exports of a nation</li> </ul>	<p><b>CG3 Patterns of Global Interactions</b> Define the process of globalization and evaluate the merit of this concept to describe the contemporary world by analyzing:</p> <ul style="list-style-type: none"> <li>• the comparative economic advantages and disadvantages</li> </ul> <p><b>3.2.2 Domestic Activity and World Trade</b> Assess the impact of trade policies, monetary policy, exchange rates, and interest rates on domestic activity and world trade.</p> <p><b>3.2.4 The Global Economy and the Marketplace</b> Analyze and describe how the global economy has changed the interaction of buyers and sellers.</p>
