

Program Overview

JA Ourselves®

JA Ourselves introduces kindergarten students to the intersection of **financial literacy** and early elementary grades social studies learning objectives. Through hands-on classroom activities, the program provides students with an introduction to personal economics and the choices consumers make to meet their needs and wants. It also introduces students to the role of money in society while providing them with practical information about earning, saving, and sharing money. JA Ourselves is volunteer-taught and kit-based. There are five 30-minute sessions, with additional extended learning activities offered throughout.
